

Exploration and Mining Geology

Volume 13, Nos. 1-4, January – October 2004
(Published November 17, 2005)

SPECIAL ISSUE: MINERAL DEPOSITS OF NUNAVUT

Preface

R. Sherlock (Guest Editor)

An Update on the Geology of the Lupin Gold Mine, Nunavut, Canada

P.A. Geusebroek and N.A. Duke

An Overview of the ULU Gold Deposit, High Lake Volcanic Belt, Nunavut, Canada

E. Flood, P. Kleespies, M. Tansey, H. Muntanion, and R. Carpenter

Geology of the Izok Massive Sulfide Deposit, Nunavut Territory, Canada

I.R. Morrison

The Geology and Mineralization of the High Lake Volcanic-hosted Massive Sulfide Deposit, Nunavut

C.A. Petch

Geological Setting of the West Meliadine Gold Deposits, Western Churchill Province, Nunavut, Canada

R.L. Carpenter and N.A. Duke

Geological Setting of the Meadowbank Gold Deposits, Woodburn Lake Group, Nunavut

R. Sherlock, S. Pehrsson, A.V. Logan, R.B. Hrabi, and W.J. Davis

The Setting and Age of the Bermuda Zn-Pb Showing, Grinnell Peninsula, Devon Island: Implications for MVT Mineralization in the Canadian Arctic

I. Mitchell, R.L. Linnen, and R.A. Creaser

Nanisivik Mine—A Profitability Comparison of Actual Mining to the Expectations of the Feasibility Study

N.R. Burns and M. Doggett

REGULAR PAPERS

Conjugate Oblique-Extension Veins in Shear and Tensile Fracture Systems at the Komis Gold Mine and Mufferaw Gold Prospect, Northern Saskatchewan

B. Lafrance

Get: A Function for Preferential Site Selection of Additional Borehole Drilling

A.A. Hassanipak and M. Sharafodin
