

## Heavy Duty Equipment Mechanic

**Location:** Musselwhite Mine

**Rotation:** 2 weeks on, 2 weeks off

**Department:** Operations

**Date Posted:** October 18, 2019

**Application Deadline:** November 18, 2019

### Key Areas of Responsibility:

- The Heavy Duty Equipment Mechanic is expected to perform preventative maintenance and repairs as required to surface and underground, mobile and stationary equipment and will be required to perform one of the following tasks,
  - Perform daily equipment inspections including greasing and top up of all lubricants and fluids
  - Perform all required preventative maintenance at the required intervals to the manufacturers specifications
  - Perform diagnostic testing and troubleshooting to identify and resolve mechanical issues
  - Familiar with underground mobile equipment braking regulations/testing and proper maintenance of such components
  - Repair or replace defective parts, components or systems
  - Test repaired equipment for proper performance and to ensure work meets manufacturer specifications
  - Maintain accurate and up to date maintenance reports and documentation
  - Maintain a working knowledge of changes in technology and repair techniques
  - Other duties as may be assigned

### General Duties and Responsibilities:

- Ensure full understanding and compliance with company policies and work in accordance with the Occupational Health and Safety Act and other local regulatory requirements
- Have the authority and responsibility to maintain a safe and efficient working environment
- Fully supports and actively participates in the team safety program based on culture and innovation
- Ensure that any equipment deemed damaged or unsafe by virtue of a defect, or a machine of which any protection system is inoperative, is not used and communicated to the supervisor
- Work closely with other crew members to create and maintain a synergy required to accomplish the shift line-up in the cycle
- Develop applicable risk assessments, procedures and work standards for all tasks
- Ensure applicable procedures and work standards for all tasks are understood, adhered to and complied at all times for all such work
- Maintain a high standard of housekeeping in the workplace
- Utilize all safety systems as specified within the site safety management system
