

Job Title: Drafting Technologist

At Nutrien, our Purpose is to **grow our world from the ground up** and we do so with safety and integrity as our core values. Nothing is more important than sending our people home safe, every day.

Nutrien is a leading provider of agricultural products, services, and solutions. With approximately 23,000 employees world-wide, we are the largest producer of potash (by capacity) and one of the world's largest producers of nitrogen and phosphate. We also operate a leading agriculture retail network that services over 500,000 growers.

We harvest the best. Diverse views and experience make us strong. We look for people who have a safety-first mindset, who are collaborative team players, who deliver on their commitments, who are innovators in search of a better way, and who believe in inclusion.

Working at Nutrien will provide you an opportunity to help us *Feed the Future*, and grow your career.

The Drafting Technologist reports to Mill Maintenance Engineering Manager.

This position is located in **Rocanville, Saskatchewan, Canada and not** available for remote work.

What you will do:

- Work in an office setting, as well as an industrial facility
- Field work at site including field measurements and project scoping
- Revise and create multi-discipline drawings using AutoCAD Experience in a document control environment
- Collaborate and communicate with multi discipline engineering team

What you will bring:

- Engineering Design or Drafting Technology 2-year Diploma
- 2-5 years' experience preferred
- Class 5 Drivers License
- Strong Safety Commitment
- Experience in AutoCAD or Inventor software, preference given to AutoCAD users
- AVEVA E3D Users also given preference
- Previous related work experience at a Potash refining facility or in another industrial setting is preferred
- Self-motivated attitude along with the ability to pay close attention to detail and have a strong ability to work individually as well as in a team setting

Are you a good match? Apply today!
